The benefit of having your own accommodation is that it allows teams to spend valuable time together, which strengthens relationships, communication and trust and helps teams to develop as one entity.

Big Brother style team development

The concept of running team against team in competition for one or two days at a time really creates a different type of response to normal team building activities. Relationships are cast in stone as the teams have to live with each other and survive on a budget of £10 per person per day for food etc and they have to undertake all of their own cooking, cleaning, shopping etc whilst living in their houses.

Leadership / talent development team building

We train in the region of 4000 leaders each year across all types of business from the private, public and 1/3 sectors...

We understand leadership development intimately and realise to become an inspirational leader you have to adopt a developmental, facilitative and consultative style of leadership.

Management team building

We can link the development of your management team into management and leadership development and Return on Investment, which allows us to measure the development of your teams post course.

We can put you in touch directly with our clients who have achieved significant bottom line improvements as a result of our performance focused management and leadership experiential team building programmes.

Bite-size learning and team building

We have 2 team building properties in Keswick, Cumbria and develop teams from all over the country offsite – www.resultsdrivengroup.co.uk/TeamBuilding.aspx

It is possible to run 3 Bite-size learning sessions in a day interspersed with different team building activities. We tend to take teams away for 2 days at a time and focus down on the issues that they face and the areas they need to improve in that will really make a difference back in the workplace.

If you want to run an experiential teambuild for any type of work team then this has to be one of the options that you can consider!

Types of teams we cater for:

- Management teams
- Leadership teams
- Any type of work team
- Sales teams
- Boards of Directors

From across the Private, Public and 3rd sectors.
